FareIQ™
+ RoomIQ™

Increase Savings and Maximize Travel Program Effectiveness with Dynamic Price Assurance

From the moment of purchase through the day of departure, Yapta's FareIQ and RoomIQ dynamically track prices on all your company's booked airline tickets and hotel rooms, sending instant savings alerts when prices drop. *FareIQ and RoomIQ work with major Global Distribution Systems (GDS) and Travel Management Companies (TMCs) to deliver savings to your company without traveler disruption.*

Designed specifically for corporate travel, our savings alerts take into account all available and negotiated rates, change fees, seat classes, refundable/nonrefundable and target savings amounts, ensuring you get the optimal price.

Seamless, secure integration

Our services integrate with your current travel tools and are SOC 2 compliant, meeting stringent controls and processes to safeguard traveler data.

The FareIQ and RoomIQ dynamic price tracking tools identify price drops on identical itineraries and comparable rooms, so the traveler's experience is unaffected.

Access real-time analytics dashboards to view traveler booking efficiencies and supplier performance data.
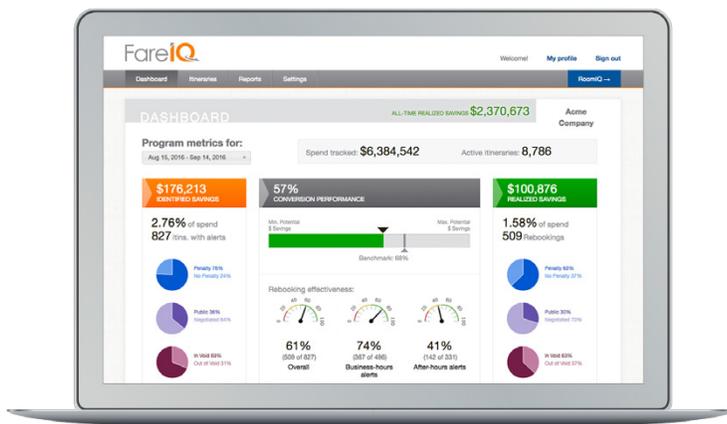

yapta

FareIQ and RoomIQ work with your current workflow
